Appendix 4

CALCULATION STANDARDS TABLE OF SATELLITE COMMUNICATIONS FREQUENCY

Station category	Calculation Formula (per station)	remarks
Satellite fixed earth station Mobilized Satellite fixed earth station (SNG · Fly Away)	$\left\{ \left[\frac{BW}{1MHz}\right] \times 5,000 \right\} \times d$	 BW: means the assigned bandwidth d: adjustment factor (as annex 2) The bandwidth of is smaller than 1 MHz, shall be calculated as 1 MHz; bigger than 72 MHz shall be calculated as 72 MHz The satellite earth station with reception function will not be charged.
